

JBR Welcomes

Aaron Hoberg, EIT

Air Quality Specialist

B.S. Chemical Engineering, University of Nevada, Reno, 2010

Years of Experience: 3

Aaron Hoberg has joined JBR Environmental Consultants, Inc. as an Air Quality Specialist, EIT. Aaron has a B.S. in Chemical Engineering and over three years of experience in the environmental field, specializing in air quality permitting and compliance. His air quality experience stems from previously working for the Nevada Division of Environmental Protection, Bureau of Air Pollution Control, where he became adept at researching applicable regulations for emission units, developing emissions inventory, calculating emissions, conducting compliance inspections, supervising source testing, and using air dispersion modeling software to determine maximum impacts for all pollutants. Mr. Hoberg's Chemical Engineering degree gives him an excellent understanding of the types of processes seen in air quality and the ability to find solutions to the problems surrounding air quality.

Aaron joins the JBR team of 125 professionals including wildlife biologists, botanists, wetland specialists, air quality specialists, soil scientists, geologists, hydrologists, hydrogeologists, hazardous waste professionals, GIS specialists, and regulatory professionals. Aaron is located in JBR's Reno, Nevada office, one of 10 JBR offices serving clients throughout the West.
